DETAILED ACTION

Upon further review of this application, it has been determined that further restriction is required. The late determination of this further restriction is regretted.

Supplemental Election/Restrictions

1. Further restriction, supplemental to the previous office action, to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 9-44, drawn to a method for processing droplets, classified in class 436, subclass 180.
 - II. Claims 76-112, drawn to a droplet dispensing system, classified in class 422, subclass 65.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the presently claimed method does not require any particular system, and in fact can be performed by hand through manual dispensing and visual tracking.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey R. Snay whose telephone number is (571) 272-1264. The examiner can normally be reached on Mon-Fri.
